INTERIOR MOOD 1
Encencier

A vessel in which incense is burned, one of which is the herb rosemary.

To make this contemporary white mood more dynamic, we did not overload it with too much accent colours, textures and features, but the goal was to elevate the minimalist white space with timber accents to still ensure a sense of balance and provide a cosy feel to your home.

This mood portrays a more earthy undertone and represents a darker contemporary setting. The darker accents frames the other beautiful neutral furnishings and finishes and adds a layer of refinement.
